

Project Design Phase-I Problem Solution Fit Template

Date	14 Feb 2026
Team ID	LTVIP2026TMIDS90550
Project Name	Heart Disease Analysis
Maximum Marks	2 Marks

Problem Solution Fit Template:

This simply means that you have found a problem with your customer and that the solution you have realised for it actually solves the customers problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognise what would work and why.

PROBLEM – SOLUTION FIT CANVAS HOUSING MARKET ANALYSIS/USING TABLEAU				
Define CS, J&P, CC	1. CUSTOMER SEGMENT(S) CS - Data Analysts - Real Estate Analysts - Business Stakeholders - Students learning Data Analytics - Home buyers & investors (decision makers)	2. JOBS-TO-BE-DONE / PROBLEMS J&P - Understand housing price trends - Compare renovated vs non-renovated house prices - Analyze house age and feature impact - Make data-driven real estate decisions - Quickly interpret large housing datasets	5. CUSTOMER CONSTRAINTS CC - Limited time for analysis - Lack of visualization skills - Difficulty interpreting large datasets - No single dashboard view for insights	
	2. JOBS-TO-BE-DONE / PROBLEMS J&P - Understand housing price trends - Compare renovated vs non-renovated house prices - Analyze house age and feature impact - Make data-driven real estate decisions - Quickly interpret large housing datasets	9. PROBLEM ROOT CAUSE RC - Housing data is large and complex - Lack of meaningful visual representation - No integrated dashboard combining KPIs, trends and stories - Raw data does not directly support decision-making	6. CUSTOMER CONSTRAINTS CC - Limited time for analysis - Lack of visualization skills - Difficulty interpreting large datasets - No single dashboard view for insights	
Identify along TR, EM	3. TRIGGERS TR - Rapid changes in housing market prices - Difficulty understanding raw housing datasets - Need for visual insights for reports or presentations - Business or academic project requirements	4. PROBLEM ROOT CAUSE RC - Housing data is large and complex - Lack of meaningful visual representation - No integrated dashboard combining KPIs, trends and stories - Raw data does not directly support decision-making	7. BEHAVIOUR BE - Users manually explore datasets - Switch between multiple files - Spend extra time understanding trends - Depend on static charts and summaries	
	4. EMOTIONS: BEFORE / AFTER EM - Before: - Confused - Overwhelmed by raw data - After: - Clear understanding of trends - Few confusion-making	10. YOUR SOLUTION SL ✓ Interactive Tableau Dashboards ✓ KPI overview for quick insights ✓ Scenario-based analysis (4 scenarios) ✓ Web integration using Flask ✓ Clean visuals for easy understanding ✓ Transforms raw housing data into clear, actionable insights	8. CHANNELS of BEHAVIOUR CH - ONLINE - Tableau dashboards - Web application (Flask website) - Online reports & presentations 8. OFFLINE - POPs - Project documentation - Academic submissions
